HONOLULU, HAWAII, DECEMBER 11, 1926.

NO. 12

KNUTE ROCKNE ARRIVES NEXT TUESDAY MORN

Notre Dame Mentor To Give Football Course Here; To Referee Holiday Games

Knute Rockne of Notre Dame, the wizard of the gridiron, will arrive in Hawaii next Tuesday morning to conduct a special course for football coaches and fans, given by the extension division of the University of Hawaii. The noted mentor of South Bend will be accompanied by Mrs. Rockne and children.

Elaborate plans are being arranged by "Smiley" Cornelison, general chairman of the entertainment committee, to welcome the Hoosier director, whose "Rough Riders" have defeated the strongest elevens of the East, the "Big Ten," the Southern circuit, and the Pacific Coast conference.

According to Professor David L. Crawford, head of the University of Hawaii Extension division, the football course will extend from December 20, 1926, to January 1, 1927, and will consist of daily field work, evening lectures, and blackboard talks. The evening sessions will be 7 to 9 p. m., and the time of the daily field work will be arranged to suit the convenience of the class. The fee for this course will be \$25, which is less than was charged for a similar course by Mr. Rockne last summer at Oregon Agricultural college, Corvallis, Oregon.

Mr. Rockne is a very enterprising speaker and is reputed to be one of the best informed men on football in America. He is one of the trio of famous coaches, the other two being Tad Jones of Yale and "Pop" Warner of Stanford, that selects All-American teams each year. He is a thorough gentleman and a good sportsman and teaches a clean type of football.

It is also understood that the Indiana boss will referee the three big games of the season: the Varsity-Utah clash on December 18, the All-Star-South Dakota State tilt on Christmas, and the Varsity-South Dakota State contest on New Year's Day, 1927.

Asilomar Conference Men To Be Guests At Party

The five men who will represent the University of Hawaii at the Asilomar intercollegiate conference this winter will be given a farewell reception at the home of Mr. and Mrs. Dwight Rugh, next Thursday evening, at 7:30 o'clock. Members of the University Student "Y" Cabinet-council, and friends will assist Mr. and Mrs. Rugh in giving the delegates a happy send-off party.

Gerald Kinnear Is Re-Chosen President of Oberlin Alumni

Gerald R. Kinnear, treasurer and purchasing agent of the university, was re-elected president of the Oberlin Alumni association at its annual meeting held on November 29.

Mr. Kinnear is a member of the 1921 graduation class of Oberlin university.

NISHIHARA MEETS AUTO ACCIDENT

Matsuji Nishihara '27 and a party of student friends narrowly escaped serious injuries recently when a car which Nishihara was driving was crashed into by an oncoming automobile, driven by a speed-fiend. The accident happened at Nishihara and his friends were returning from the last football game. Both machines were rather badly battered up, but the occupants escaped serious injuries.

UNION TO DISCUSS EXTRATERRITORY ISSUE

"Resolved, that extraterritoriality in China should be immediately abolished," will be the subject for debate at the next meeting of the Hawaii Union, which will be held at the home of Professor and Mrs. John M. Baker, next Thursday evening at 7:30 o'clock.

Following the debate, Prof. Shao Chang Lee, head of the Chinese department at the University of Hawaii, will address the Union on extraterritoriality and some of the other leading problems facing China today.

The members of the Union will be divided into two houses in the coming debate, and a very profitable discussion is expected. Professor Lee will be asked to criticize the arguments presented by the debaters, and to supplement them with his own conclusions and opinions on the subject.

The last meeting of the Union was held at the home of Dr. and Mrs. Arthur L. Andrews, last week Thursday evening. At that meeting the men discussed the proposition, "Resolved, that this house is in favor of the principle of Prohibition." The stage was set in the Orient, and the debaters spoke to an imaginary audience in any one of the countries of the Orient. Professor Baker presided over the debate.

Deans Conquer Winged "O" Football Eleven In Thrilling Match

Flaming with the indomitable fighting spirit that carried former Rainbow elevens to victory, the 1926 University of Hawaii knights of the gridiron buried the Olympic pigskin crusaders from San Francisco under a score of 34 to 0 in a football battle staged last Saturday afternoon at the new Honolulu stadium.

The "Fighting Deans" outfought and outcharged the Winged "O" invaders, and also excelled in all departments of the game. The Bay City charges fought gamely but they were helpless before the fierce onslaughts of the Green and White grid gladiators.

Led by their dashing captain, Eddie Fernandez of Four Horsemen fame, the Varsity warriors put up the best fight of the season. They rose to greater heights as the game progressed and were still fighting when the whistle announced the cessation of hostilities. Captain Eddie Fernandez, displayed his old time form and exhibited some spectacular and spirited running. His runbacks of punts were sensational and thrilled the spectators. Whittle, also, scintillated for the Varsity. The light but sturdy halfback scored two touchdowns for the Deans, both tallies being the results of brilliant end runs.

The Mercury gridgers, too, played a hard, clean game. Although they

(Continued on Page 4)

Commerce Club Hears John Barrett's Address

The Commercial Club held its fourth meeting of the year at the Honolulu Chop Sui recently at which time John T. Barrett, prohibition director of the territory, gave an interesting talk on the commercial relations and conditions existing in the West Indies and Central America. Barrett, who spent many years in active governmental capacity in Panama and Porto Rico, gave descriptions of the territory, the people, the types of imports, and the peculiarities of the various communities, which were of great interest to the commerce students. Barrett declared that keen competition has existed between nations for a market in the West Indies for many years.

Besides the regular members of the Commerce club and the two faculty members, C. C. Tilton and E. H. Van Winkle, three other members of the faculty were guests: Edward O. Hookey, Capt. N. M. Nelsen and M. C. Magarian.

Old Watches Wanted! Give Yours To Dr. Kirkpatrick And Put It To Real Use

Haven't you got an old watch that doesn't work? One that has no earthly use whatever, except as a relic of the good old days of tick-ticks?

Give that watch to Professor Kirkpatrick.

In every watch there are two special screws that Professor Kirkpatrick needs, and needs sorely. This type of screw cannot be bought, except in a watch.

"Kirk" is working on an invention of his which will measure earthquake tremors. It will differ from the seismographs in general use today, in that it will measure the shocks quantitatively. For this very delicate instrument he needs a special type of screws; hence his S. O. S. for broken-down watches.

The new invention will be used by Dr. Thomas Jagger at the observatory on the edge of Kilauea volcano, and will probably be used at other important stations throughout the world, if the experiments prove satisfactory.

"Kirk" doesn't need just one or two watches. He needs lots of them. Almost every one has one or two of these broken-down timepieces lying about in the house somewhere. Let's give them to "Kirk." Leave your watches at the Book Store if you cannot find our physicist. Won't YOU kokua?

THE EDITOR.

Harrison Chosen As Basketball Coach

"Spud" Harrison, a former University of Nevada all-around athlete, has been appointed coach of the Rainbow basketball team by the University of Hawaii authorities to succeed Captain Charles Jones, who is now head of the R. O. T. C. department at Punahou.

The new casaba mentor boasts of an enviable record as a versatile sportsman. While at Nevada, he made quite a name for himself as captain and end of the Sagebrush eleven and as a star broad jumper. Graduating from the Reno institution, Harrison joined the Olympic club football team of San Francisco, which invaded the islands last year and overwhelmed "Scotty" Schuman's Townies 40-0.

He also performed for the Winged "O" quintet, which broke even in its Hawaiian campaign, by defeating the Hawaiian Pines, champions of the Commercial casaba circuit, and losing to the Palama five, three-times title holders of the Honolulu Senior Basketball league.

(Continued on Page 2)

DR. PALMER WRITES FROM VIENNA, AUSTRIA

Prof. Harold S. Palmer, of the University of Hawaii, who is now on sabbatical leave in Europe, has written a card to the editor of Ka Leo from Vienna, Austria.

Dr. Palmer writes: "The Editor, Ka Leo o Hawaii, University of Hawaii, Honolulu, Hawaii, Vereinigte Stonten von Nord Amerika—Oct. 21 1926. I have arrived safely in Vienna and am comfortably established with a private family. Best wishes to Ka Leo for the year. HAROLD S. PALMER."

DAN MCCOY ENTERTAINS AT DINNER AND DANCE

Daniel McCoy, sophomore, entertained a number of his friends at a delightful hop supper at his quarters at Schofield Barracks last week end. After enjoying supper together, the guests were taken by the host to the hop at the Kaala Club. Among the guests of the evening were Miss Betty Steere, Miss Dorothy Waldron, Miss Sarah Richey, Miss Mary-Gertrude Luebbemann, and Harold Shaw, Jack Myatt, and Lawrence Halstead.

PROFESSOR S. C. LEE PREPARES HISTORY

Professor Shao Chang Lee, of the University of Hawaii, has prepared a new and complete outline history of China, entitled "The Development of Chinese Culture." This scholarly work is in the form of a chart, and is published under the auspices of the University of Hawaii, through President Arthur L. Dean, and the University Extension Division, through Prof. David L. Crawford.

The University of Hawaii is officially sending hundreds of these charts to the leading colleges and educators on the mainland and in the Orient.

For the benefit of the students at the University of Hawaii and the public school students and the people at large, of the Territory, the Extension Division has printed 1000 copies, which it is offering for sale at cost price, which is 90 cents.

The charts are printed in large type, and are especially adapted for classroom purposes, being 33x48 inches in size. They are not too bulky for individual use, however. Every student at the university who is interested in Chinese history is urged to purchase a copy.

There are ten main divisions in the chart, including the following headings: Periods (name), Year (when each Period began), Capital (during that Period), Character and Events of the Period, Government and Customs, Economic System, Religion and Philosophy, Education and Literature, Arts and Other Handiworks, World History (contemporary to the respective Periods).

MISS SARAH RICHEY IS ADVISED TO LEAVE "U"

Miss Sarah Richey, popular member of the freshman class, has decided to leave the University, acting on her physician's orders. Miss Richey arrived from the mainland only recently, and has been suffering from ill health. At the beginning of the semester she was advised by her physician not to live in Honolulu, because of the climate here. But, anxious to attend the University, Miss Richey decided to register as a regular student, hoping to become acclimated before long. After three months, however, she has finally been forced to give up her plan, and will rest at Schofield Barracks for the rest of the semester, under her doctor's care.

FACULTY WOMEN HOLD PICNIC SUPPER AT KAHALA BEACH

The Faculty Women's Club held a basket supper at the home of Mr. Wade Warren Thayer, at Kahala, last evening. All the members of the University faculty were invited. Supper baskets were sold, the proceeds to go to the scholarship fund that the faculty Women's Club is planning to establish for women students attending the University of Hawaii.

PAUL F. SAKAMAKI LEAVES WAIPAHU POSITION FOR OLAA

Paul F. Sakamaki '25, who until recently was assistant agriculturist on the Waipahu sugar plantation, has resigned his position to accept a position with the Olaa sugar plantation, on the island of Hawaii. He is also working as acting assistant postmaster at Olaa.

MRS. JOHN M. BAKER BECOMES MEMBER OF HOLYOKE ALUMNAE

Bringing with her the latest news of Mt. Holyoke College, Mrs. John M. Baker is a welcome addition to the local chapter of the alumnae association.

Mrs. Baker was made a member of Hawaii's chapter at a meeting of the fraternity held on November 28 at the home of Mrs. Arthur Alexander, president. She gave an interesting account of the recent news happenings at the college.

UTAH TO COME TUESDAY FOR GRID BATTLE

Husky Rocky Mts. Champs Determined To Avenge The Defeats of Predecessors

By HARRY SHIRAMIZU

The University of Utah football team, champions of the Rocky Mountain conference, is coming to Honolulu next Tuesday morning determined to avenge the defeat of their predecessors at the hands of the University of Hawaii eleven.

It will be recalled that the "Fighting Deans" scored impressive triumphs over two league leaders of the Rocky Mountain circuit, beating the University of Colorado 13-0 on New Year's Day, 1925, and smothering the Colorado Aggies 41-0 on December 12 of the same year.

Coach Ike Armstrong will be accompanied by 18 players and a party of 30 loyal rooters, including Mrs. Armstrong; Dr. L. H. Marshall, faculty representative; Mrs. Marshall; Trainer Iner Neilson; Graduate Manager Cal Boberg; and Pat Ryan, a star member of the team who sustained a broken back early in the season when he fell off the roof of a house.

The gridiron troubadours from Salt Lake City are not only set to redeem the reverses of former champions of the Mountain league, but to maintain their unblemished record of six victories. The following is a brief grid resume of the Mountaineers:

In the first game of the season, the Redskins secured a 13-0 win over South Dakota, a team that held Northwestern, co-champions of the "Big Ten" conference, to a 14-0 score. Then on three consecutive Saturdays, the Utes overwhelmed Colorado, 1924 conference champions, 37-0; vanquished the Colorado Aggies, last year's league leaders, 10-6; and trounced Denver University, coached by Fred Dawson of Nebraska, 13-0.

Next the Red-Devils annihilated Brigham Young university 40-6; and capped the climax of a successful conference campaign by burying their traditional foes, the Utah Aggies, under a score of 34-0. Such is the enviable achievement of the pigskin invaders from the beet-sugar country, who will meet the Deans next Saturday afternoon at the new Honolulu stadium in a colorful intersectional gridiron battle.

To accomplish the double objectives of their gridiron crusade, the University of Utah officials have informed Coach Otto Klum of the University of Hawaii that the football players were making their training quarters at Schofield Barracks or Wahiawa and will remain there until the day of the game, believing that weather conditions will be more suitable.

(Continued on Page 3)

"FAT" NAKAMURA RETURNS FROM JAPAN

Takeo Nakamura '27 returned to Hawaii from Japan with the all-star baseball team that toured the Flowery Kingdom during the last few months on an extensive sporting trip. Nakamura will return to his classes in the second semester. He is a well-known athlete, being a regular lineman on the Varsity football team for three years, succeeding a fine record at McKinley high school. Nakamura is a good baseball player, handling a catcher's job with ability.

GEORGE CHING WRITES FROM WASHINGTON

George K. Ching, who spent his first two years of college at the University of Hawaii is now at the University of Washington. In letters to friends he writes that he is having a hard time with his studies, but he enjoys the college spirit that is manifest in that institution. He writes enthusiastically of the Washington Huskies.

EDITORIAL

WE CONQUER THE OLYMPICS

The Fighting Deans defeated the visiting Olympic football team last Saturday, 34-0. It was a clean, hard-fought game, in which the better team won. The Deans earned their victory, without question or doubt. They were in better condition than the visitors, and they played earnestly and capably. They played superb football throughout. We congratulate Captain Eddie and the men of the football team. We gratefully salute Otto Klum and Carter Galt, our mentors. We commend Cheer Leader Ault and the rooting section. And, of course, there was the university band blaring forth in all its glory.

NOW LET'S STAGGER UTAH!

The team has at last "hit the stride" of last year's Champion Deans. Let's keep that stride. We're on the home stretch now with only two more hurdles to leap. Let's open up, and race down that home stretch like a flash of the rainbow. We play the undefeated Utah team next Saturday, and another undefeated team, South Dakota, on New year's Day. How about sending them back each with the first defeat of the season chalked up against it? Let's all point towards that Utah game, a week from today. Let's Stagger Utah!

A TRIUMPH IN HISTORICAL SCHOLARSHIP

A triumph in historical scholarship is the outline history of China prepared by Professor Shao Chang Lee, of the University of Hawaii, and published under the auspices of the University through President Arthur L. Dean, and the Extension Division through Director David L. Crawford.

The chart is remarkably concise, which is one of the distinguishing marks of true scholarship. The salient facts of Chinese history have been carefully picked out and presented in their proper relationships to each other. There is also a running sketch of the world's history, presenting contemporary activities outside of China, for each of the different Periods of Chinese history.

The chart is fascinating, because of its rugged simplicity and its sweeping analysis of the growth and development of Chinese institutions from the beginning of recorded history, down through the thousands of years to our own day. The editor of Ka Leo urges every student in the university to purchase one or more of these charts. They are sold at cost-price under the auspices of the Extension Division, and may be secured at the University Book Store.

IS HAWAII ISOLATED, AFTER ALL?

During the past fortnight or so, at least three eminent men have passed through Honolulu, giving very enlightening and significant addresses. There was Dr. William Elliot Griffiths, probably the outstanding western scholar of Japanese history and culture, hale and hearty in spite of his eighty and three years, going to Japan on invitation of the Japanese people. Then came Dr. Herman C. Liu, distinguished leader of New China, returning to his people after attending the Hel-singfors conference, and later going on a lecture tour through Europe and continental United States. Then there was Dr. Robert E. Moton, Negro educator, head of Tuskegee Institute, succeeding Booker T. Washington, who addressed a full house at Mission Memorial hall. He was given a tremendous ovation, as were the other two distinguished lecturers.

Truly we are favored by the gods to live in Honolulu. We live not on an isolated island. We are kept in vital, personal touch with the great currents of human thought and movement throughout the world by such men as Dr. Griffiths, Liu and Moton, and the many others who have preceded them, and who will come after them.

Father. My daughter is of the highest stock.

Young Suitor. What are the chances of becoming a stock holder.

"Bull" Towse—Father, please give me money, I am broke.

Mr. Towse—So's your old man.

An old Ford car singing a song: Just had a little knock about an hour ago and it went right to my cylinder head.

"I thought you said you gave strychnine to your horse for diabetes last winter."

"Yes, I surely did."

"I gave it to my horse yesterday and he died."

"Mine did, too."

What a whale of a difference just a few cents make out of an almost flat pocketbook to take her to the other show.

Man is a "worm of the dust" he comes along, wiggles about a while and finally some chicken gets him.

I only kissed her on the cheek; It seemed a simple frolic; But I was in bed a week— They called it painters colic.

Freshie—I wonder if the doctor will give me anything for my head.

Soph—I doubt if he would take it as a gift.

The College World

University of Southern California—

Regardless of the fact that a similar system has recently failed at the University of California, a plan for an "honor court" has been accepted and passed on by the Student Executive committee here, and is now up for approval of President Von Klein Smid. The tentative system provides that any student seeing another cheat in the classroom may turn in the student's name on a signed paper and that their names will not be divulged to anyone.

University of Oregon—

Fifty original paintings by the Boston Society of Water Color Painters are being sent to the University of Oregon by the American Federation of Arts. These paintings are to be shown January 20 to February 3.

University of Oklahoma—

A light epidemic of smallpox is hitting the campus of University of Oklahoma. All students will be vaccinated. Should the epidemic become widespread it would be general about Thanksgiving time, according to Doctor Elison, university infirmary physician. A quarantine of the university to protect the rest of the state, would prevent students from leaving Norman.

University of Oregon—

A ten-day course is being given for University of Oregon women as a part of the Girl Scout's international program. Miss Vaal Stark, northwest regional director of the Girl Scouts, will conduct the course. It is expected to enable students to learn a program which can be used in playground neighborhood and church work. Home, health, and citizenship are being stressed.

University of Nevada—

Each of the deans has received a set of the identification photographs of all freshmen upon registration. As there are only 286 pictures in the present set it is evident that some escaped this part of registration. The missing students will be required to go through the ordeal next semester.

University of North Carolina—

Students of this university have recently asked the faculty to provide a course on the social, medical and psychological economy of marriage.

Whitman College—

An original copy of the New York Herald for April 15, 1865, containing the announcement of the assassination of President Lincoln has been presented to the historical museum of Whitman College by the Rev. Frank R. Shipman, D. D., of New Haven, Conn., who is interested in Whitman and has made several interesting and valuable gifts to the college.

Whitman College—

The Whitman system of selective admission for girls again proves successful as shown by the recent mid-term reports. An unusually small percentage of those on probation at the middle of the term were girls, there being 51 men and 7 women on the list. The percentage of freshmen on probation is relatively small.

University of Nevada—

The University of Nevada has been accorded the 1927 annual meeting of the Pacific Society for the Advancement of Science. That society is one of the largest scientific groups in America having a membership of approximately 14,000.

University of Wisconsin—

Class attendance, quizzes, and final examinations will not be required of superior upper-class students who elect to take the honorary course in the academic school of the University of Wisconsin, in accordance with the plan being introduced this year. In place of class routine, students will be permitted to pursue their major courses as they see fit.

Hero: 'Darling, will you marry me?'
Her: "No, but I'll always admire you for your choice."

—Whirlwind.

Lemes—Gosh, Freshie, How did you get all that ink on you?

Freshie—I was writing a theme about autos and it was so real it back-fired.

DR. MOTON TALKS ON MODERN NEGRO

The modern negro is fast developing as a business man and is active in all forms of business enterprise existing among white people, Dr. Robert E. Moton, head of Tuskegee Institute and successor to Booker T. Washington, declared when he arrived on the Tenyo Maru enroute around the world, Dec. 2.

In the negro communities of the south they have their bank presidents, heads of realty corporations, theaters, department stores, drug stores, restaurants, etc., he said.

The world war had a great influence on the negro and his problem, Dr. Moton also declared, and relations between the negro and the white in America are on a better basis today than at any time since emancipation.

There is a growing conviction among the white people that they have nothing whatever to lose in being fair and just to the negro, the educator asserted.

Since the war an organization has been formed known as the commission on interracial cooperation. It was inaugurated by a group of outstanding white leaders from every state in the south, who met just after the war to consider the application of the principles for which the war was fought to the conditions which obtained between black and white in the south. Through this form of activity the condition of the negro population has improved in almost every direction, he said.

Dr. Moton inspected the Kamehameha Schools and in the afternoon, at Mission Memorial hall, he spoke to a large audience of teachers, students, and others interested in educational matters. Governor Farrington presided at the meeting and Dr. A. L. Dean of the University of Hawaii introduced the speaker, who told first of the raising of the \$10,000,000 for the endowment funds of Hampton and of Tuskegee Institutes, and the marvelous opportunity this would give to the two schools for the development of the work among the Negro race.

He paid a heartfelt tribute to General Samuel C. Armstrong, the founder of Hampton Institute, saying that he was the first to bring to the realization of the race the dignity, beauty, and necessity of work with the hands, this being only one of the threefold gifts brought to the race by him. The others were a belief in the ability of the race to be and to do, a self respect which should engender respect in others; and a strong realization of the importance and possibility of race adjustment—the working, side by side of races of different colors and temperaments without the domination of either race.

At the suggestion of Governor Farrington, the meeting closed with the singing of America by the entire audience.

Harrison Chosen As Basketball Coach

(Continued from Page 1)

Fascinated by the charms of Hawaii, "Spud" did not return to the coast with his teammates, but remained in Honolulu and played against Washington State college in the Christmas game as wingman of the Town team.

Then, last spring, he came to the University of Hawaii as coach of the Varsity cinderpaths. In his first year as track mentor, he produced a team that tied for first place with Palama in the second Rainbow Relay carnival, and a combination that captured the Hawaiian A. A. U. championships.

This year, he again played as end on Schuman's Town team and aided it greatly to cinch the gridiron championship of the territory. He was not only one of the mainstays on the Townies' line, but handled the punting assignment ably. Thus the university might well be proud of securing the services of a versatile athlete like "Spud" Harrison.

Coach Harrison is at present with the Town team, which is en route to San Francisco to play the Haskell Indians on December 18. He will take over the basketball reins of the university as soon as he returns from the football invasion of the Pacific coast.

Nowadays, a good joke sounds too good to be new.

—Vassar Vagabond.

At our boarding house: Spill me a glass of water please.

Duperu Gives Talk On

Sugar Refineries

Speaking on "Pocedure and Equipment in a Sugar Refinery," Mr. A. M. Duperu, vice-president and technical manager of the C and H Refinery at Crockett, San Francisco, addressed a large assembly of aggie students and older sugar men in a meeting held in Hawaii hall last Monday evening.

Mr. Duperu is in Hawaii on a tour of inspection of the different plantations in the Territory.

In introducing the substance of his talk, Mr. Duperu first stated the objects of the C and H Refinery to be to make itself a profitable organization at the same time giving due justice to both stockholders and employees.

Organization of Refinery Described

refinery he said that it has three departments—manufacturing, sales, and accounting and finance. The heads of these departments are vice-presidents of the organization. The president of the refinery supervises the general work of the concern.

The manufacturing department is divided into three sections—technical, operation, and engineering. The head of the technical department is responsible for the methods employed at the refinery. The head of the operation department puts into execution those methods. The head of the engineering department takes care of all outside activities, including matters of human relationships.

Dr. Duperu said that, as a general rule, the company does not change its methods of operation without the most exhaustive investigation. Suggestions are always welcome, and men with new ideas are encouraged as much as possible.

The workmen at Crockett have a \$50,000 club house, a woman's club, parks, play grounds, an athletic field, picnic grounds, a grammar school for the children. A high school is now being constructed.

Fifty New Homes a Year

About 50 new homes are built every year. The workingmen are helped in purchasing homes, which range in price from \$250 to \$4000. There are eight types of houses from which the employee can pick his choice. Owning homes is made as easy as possible for the workingmen.

In discussing the processes of sugar refining, Mr. Duperu said that as soon as the boat bringing the raw sugar arrives in port, it is relieved of its cargo, which may be anywhere from 5000 tons to 7500 tons, shipped in 125-pound bags. The bags of sugar are carefully weighed before being taken to the refinery. The bags are cut open, and the sugar poured into huge bins, while the empty sacks are carried off to be washed for future use.

Is Spun In Centrifugals

From the bins, the sugar goes to containers where they are immersed in syrup. A magma solution is formed, which is then spun in centrifugal baskets, so that the sugar crystals are separated from the syrup. These centrifugals are driven by individual motors, and are capable of two speeds. The sugar is then washed and dried to a purity of 99.4 per cent.

This washed raw sugar is then melted and defected with lime. The resulting solution is heated to about 80 degrees C, where no fermentation need be feared. Before being run through the Sweetland filters this solution is mixed with kiesulguhr, which aids the filtration.

UTAH HUSKIES COME DETERMINED TO WIN OVER U. H. DEANS

(Continued from Page 1)

Incidentally, this idea of gridmen retreating from the bustle of the city on the eve of an important game is not a novel one. As far back as December, 1922, just before the Varsity-Pomona contest, Coach Otto Klum took his cohorts to the Haleiwa hotel for a three day stay in order to perfect the morale of the team. The innovation proved successful for on December 26 of that year the "Fighting Deans" scored a decisive 25-6 triumph over the Pomona Sagehens, champions of the Southern California conference. It was the first time in the history of Hawaii that a mainland team was defeated on a local gridiron.

A short account of the coach, assistant coach, graduate manager, and the personnel of the team follows:

Coach Ike Armstrong came to Utah from Drake university where he acted as assistant to Ossie Solem for two years. While at Drake, Ike coached the second team in football, directed the frosh basketball, and contributed to the success of the Drake relay games. In his first year as athletic director at Utah, he coached a team that finished second in the Rocky Mountain conference. He coached four sports at the Salt Lake City institution. In track, his team won the Utah State title and finished second in the conference meet.

Assistant Coach Lingenfelter was a protege of both Solem and Armstrong at Drake. He was All Missouri Valley end for two years and, also, made quite a reputation on the track. He came west with Armstrong to take charge of the Red-Devils backfield.

Graduate Manager Cal Boberg, a pupil of Ike Armstrong, was last year selected as quarterback on the Rocky Mountain conference All-Star team, and listed among the leading signal callers of the nation. He coached Utah's freshman football team.

Captain Thornton "Spider" Morris—playing fourth year of Varsity foot-

M. H. S. '25 Class To Hold Reunion Supper

Members of the 1925 class of the McKinley High School will hold their first reunion banquet at the Sai Fu Chop Suey House on Saturday, December 18 at 6 p.m.

Dancing and games will follow the business meeting and supper. The entire roof garden of the Sai Fu has been engaged for the occasion. Excellent dance music will be furnished for the trotters and for those who do not indulge in dancing, card tables and games will be provided for them.

The committee in charge at the university, headed by Percy Smith and Frank Low, desires to have all 1925 McKinley graduates be present at the banquet. Tickets are selling at \$1. Reservations must be made before December 16.

ball. Last year was rated as one of the best ends in the conference. Six feet tall, and weighs 195.

Victor Taufer—playing third year at end. Last year was placed on All-Rocky Mountain mythical eleven. Weighs 190, fast and very good at receiving passes.

Paul Cecil—end. Playing first year of football. Understudy to Captain Morris. Weighs 165 and is six feet or more in height.

Dick Neuhausen—end. Playing first year of football. Worthy substitute for Taufer. Tall and rangy; weighs 170.

Le Grande Dykman—tackle. Playing third year. Last year was named among the leading tackles of the Rocky Mountains and of the whole nation. Weighs 180.

Alton Carman—tackle. Playing second year of football. Weighs 185.

Heber Whiting—guard. Last year was rated among the leading guards of the conference. Weighs 180.

Owen "Swede" Iverson—guard. Playing first year of football. Weighs 180. ing second year. Weighs 158.

Paul Caffey—center. Playing second year. Weighs 175 and is rated as the best pivot man in the conference this year.

Karl Hardy—center. Playing second

Brown Marries Marie Williams On Sunday

Allen "Ironjaw" Brown and Miss Marie Williams, both sophomores at the University of Hawaii, were married at the Methodist parsonage last Sunday afternoon, the Rev. Golder R. Lawrence officiating. The wedding came as a surprise to the many friends of the couple.

Brown is a son of Mr. and Mrs. J. Kelly Brown, of Honolulu. He has played at end for the Varsity football team for the past two seasons. Mrs. Brown is a daughter of Capt. and Mrs. S. W. Williams of Schofield Barracks. Mr. and Mrs. Brown have left college.

Gained 47 Pounds In Football Game

In a game played on a muddy field, Frank Pauly, giant guard of the Washington and Jefferson eleven, went in weighing 256 pounds. Withdrawn after the third period and coated from head to foot with mud, he stepped on the scales in the dressing room and weighed 303 pounds.

Tilden To Play In Europe 1927

William T. Tilden, former national tennis champion, will invade England and France next year, according to The Associated Press, which announces that an article in The American Lawn Tennis Magazine states that the injury to the former champion's knees is expected to be healed by that time. The articles goes on to say that Tilden expects to return here in time to try to regain the American crown in the national tourney.

He Averages Five And A Fifth Yards Every Time

An average gain of five and a fifth yards every time he took the ball this season gives to Herb Joesting, Minnesota's driving fullback, the reputation of being one of the greatest backs the Western Conference has seen. Minus his shoes, Joesting stands 6 feet 2 inches and weighs 192 pounds. Invariably when tackled the Owatonna, Minn., charger dragged one or more men a yard or so before being downed. He gained a total of 962 yards, just 55 yards behind Red Grange of Illinois when the latter set a Big Ten record of 1,017 yards in 1924. Joesting led Western Conference players in scoring with 13 touchdowns, for a total of 78 points. Minnesota expects much of him next year, his last.

A banana peel,
A flash of hose
A little squeal,
And down she goes.
Black and Blue Jay.

Old father Hubbard went to the cupboard,
To tickle his palate, that's all;
In forty-eight hours a prayer and some flower;
Alas! It was wood alcohol.

"My wife finally got rid of her nasty temper."
"How?"
"She stamped her foot one day while ice skating."
—Pitt Panther.

Diner: Are you the young lady who took my order?
Waitress: Yes sir.

Diner: Well, you're still looking fine. How are your grandchildren?

Interest In Football
At Indiana Slight

That the University of Indiana has but little interest in football and concentrates its main activities in scholastic work, is told in a letter received by Masatoshi Katagiri '26, from Peter A. Lee, former student at the University of Hawaii, now taking a medical course at the University of Indiana.

Lee writes: "In regard to football here, Indiana's team is not very strong. You know that this is an old school, over 100 years now. The President here stresses scholarship and his professors are brought up to that way of thinking of a college.

Not Football-Crazy

"That in turn is percolated down to the student-body so that, in general Indiana is not football-crazy as Notre Dame, for instance.

"Here is what the President once said: 'I desire to see the amazing success which men now achieve in science, engineering, medicine surgery and the like, matched by equal success in dealing with the moral problems of the individual and of society. Without this latter success the former is worthless.'

Is Active At Indiana

While attending the University of Hawaii, Lee was a prominent student in extracurricula activities, particularly in Y. M. C. A. work, and in Chinese Students' Alliance affairs. Concerning his activities at Indiana, he writes:

"My activities in the 'Y' here so far have included: (1) deputation team work (went to Springfield once to speak to a group there). (2) Helping to put on the Campus an Open Forum discussion on 'America's Foreign Relations.'

"(3) Forming a deputation committee of foreign students. (4) Planning to go to Vincennes to give a series of six talks to the Presbyterian Church there."

Going To Milwaukee Confab

Lee writes that he is planning to go to the first National Student Conference of America, which will be held at Milwaukee, December 28th to January 1st. It is called the "most significant intercollegiate event of the present student generation."

Duperu Speaks To Aggies
On Sugar Refineries

(Continued from Page 2)

Sugar Is Filtered

Kietulguhr or infusorial earth, is the skeletonized remains of a marine plant. It contains from 85 per cent to 90 per cent of silica. All the suspended matter is removed by the Sweetland filters. Oliver filters are used if the solid matter is heavily concentrated in the sugar solution.

The solution goes to char filters where the color is removed by means of bone coal, a purifying medium. It removes the impurities in the solution by absorbing ash, organic matter and color.

Boiled With Syrup

The solution is then boiled in Calandria pans. Syrup is added. Then it is spun in centrifugal baskets. The result is clean, white sugar. This sugar is badded and stored away.

Deans Conquer Winged
"O" Football Eleven

(Continued from Page 1)

were beaten, they won the heart of the fans by their sportsmanship and dogged determination not to quit fighting until the end of the contest.

The Combat

The reserves of both contenders opened the battle, with the Varsity seconds having a slight edge over the Olympic starters.

There was no scoring in the first quarter. But in the second canto with the Dean regulars in the game, the Varsity gridmen managed to score one touchdown, when Whittle packed the oval 19 yards across the Olympics' goal line. Eddie converted the extra point.

Spurred on to superhuman efforts by this achievement, the "Fighting Deans" came back in the third session and tallied on two occasions. Whittle scored his second touchdown after a thrilling 12-yard run, while Macfarlane crashed through center for the other score. Eddie converted one but failed to make good in his other attempt.

Still in a fighting mood, the Deans opened the last frame with a score when Eddie Fernandez ran 27 yards through a broken field to register. Eddie succeeded in the try-for-point. The final touchdown of the fray was the result of a terrific drive which was not to be dnd until ddi Fernanez crossed the last whit stripe for six points. Eddie again converted the extra point. The game ended: Hawaii 34, Alympics 0.

HOW ROCKNE SPURS
PLAYERS TO VICTORY

While the players were dressing Rockne goes out on the field to inspect the gridiron. When he came back he said: "Where are your mud-cleats, boys. The field is soft and kind of muddy."

"Go out there and fight, boys," Rockne called to the players as they ran out on the field.

When Rockne was about to make a substitution he called out: "Warm up, boy, you're going in."

He tapped each player on the back who was replaced with a "Nice game, boy, that's the way to fight in there."

Champion Tunney
Gets New Name

Gene Tunney, world's heavyweight champion, is known as "un chien diabolique" among sports writers in Paris. The translation of the phrase is "a diabolical hound," referred to the "devil dog," a title given to members of the Marine Corps.

She was only an undertaker's daughter but what she could undertake.

—Drexer.

"I'm an awful ladies' man."

"Righto; I've seen you with some awful ladies."

University Men's
Class At Union
Church Has Forums

The University Men's class at Central Union Church, under the leadership of John Devereaux '30, has been discussing everything from human nature and eugenics to the proposition of a possible soccer team. The Rev. Mr. P. A. Swartz has led in the discussion of human nature and its traits, and the development of civilization through the guidance and direction of marriage choices and propagation of the race.

Quoting the Rev. Mr. Swartz, "There is no strong highly intellectual group of citizens discussing some of the great social and perplexing problems of society. . . Society is to be saved not by material things but by its ideas." And the men launched out into a discussion of what the nature of the future generations of human beings should be.

Mendel's Law and Practical Hygiene
Explanation of the simpler results of Mendel's law and the way that society may in the future control the propagation of its race were taken up. Some statements by the different members include:

"One solution would be to get an international agreement to make up our armies with old men and imbeciles. That ought to clean up the races!"

"Inventions continue to put men and women out of work; what will be the result in a few more years?"

"It is not so much a matter of labor as the re-distribution and use of the things produced."

"In many cases it appears that the most carefree and happy races are those with lower standards of living and more manual labor for the meeting of life's necessities."

"The difference between British labor and American labor is that British labor does not recognize the stratification of society into different cultural standards, and the fact that cultural things should be available to all classes; while American labor accepts class stratification."

"In this matter of the improvement of the human race there are four main channels of effort. 1. Eugenics and its widespread understanding and appreciation among all educated peoples. 2. Compulsory social hygiene among peoples of unsocial and diseased condition; 3. A more sane and wise understanding of birth-control. 4. More social responsibility in the care and development of the part of the public, for the children of the lower social strata."

More Moral Earnestness

"We need more people going into business as a field of community service rather than a way to get rich. We need more moral earnestness on the part of all citizens, to recognize responsibilities, in politics, and all social relations."

Acquiring Human Behavior

Morrison was assigned a chapter in, "Why We Behave Like Human Beings," and will report next Sunday on "Acquiring Human Behavior." The Rev. Mr. Swartz will continue to lead the discussion.

Brainard Addresses
University "Y" Men

That the people on the mainland are giving more and more thought to Hawaii, was the declaration of Scott Brainard, executive secretary of the Central Y. M. C. A. in an address to the men of the University Y. M. C. A. Cabinet-council at a meeting of the Cabinet held at the University library last Wednesday evening, at 6 o'clock.

Mr. Brainard has just returned to Honolulu from the recent meeting of the National Council of the Y. M. C. A. in the United States. He was one of the two representatives to the meeting from Hawaii.

The National Council personnel consists of many noted and influential men in the business, educational, religious, and financial world, according to Mr. Brainard. Continuing, he described the general activities of the Y. M. C. A. and the far-reaching influence of its work. He said that there is a growing sense of unity among the many local Association groups throughout the country, and a keener sense of individual responsibility to the National Y. M. C. A. is becoming more and more manifest.

Students Still True to Y. M. C. A.

The rumors of the withdrawing of the college student "Y" associations from the General Movement, were denied by Brainard who reported that in a talk with Mr. David Porter, head of the Student Movement in America, Porter expressed a definite conviction that the rumors were unfounded.

The general Movement needs the youth and vitality of the college men's associations, just as the latter need the stability, the mature counsel, and the trained leadership that the former can give them.

Cabinet Men Make Reports

Following Mr. Brainard's talk, reports were given by several members of the Student "Y" Cabinet, on the activities of their respective committees during the past month. Reports covered such activities as the Thanksgiving "retreat" for freshmen, held at the Waialua fresh air camp; the progress of the College Life discussion groups; the work of the boys' clubs and their leaders; visits of the deputation team, and others. A deputation trip will be made to Kauai in January, it was reported by David Makaoi, chairman of the team.

FAVORS PLAN TO
MAKE IT "BIG
TWELVE" IN 1927

Addition of Notre Dame and Nebraska to the Western Conference, enlarging it to a "big twelve," and making it the "most powerful circuit in the world," is favored by Minnesota, according to the Minnesota Daily, official publication of the university.

Commenting upon the proposed shifts being considered in big ten circles, the Daily favors the addition to Nebraska rather than the Michigan Aggies to round out a 12 team circuit.

Chinese Students To
Stage 2-Act Play

The University Unit of the Chinese Students' Alliance will put on a two-act play, entitled, "Chinese Love," sometime in February next year. The cast has been chosen from tryouts held last week, and work on the production is going on in earnest.

The play was written by C. Hubert Kopp and McKinley Derksen, and is full of the necessary dramatic touches to make it a big thing.

Parts have already been assigned and to all indications, the play will go over big. The cast of characters are as follows:

Wa Humm, house servant, Fook Kyau Zane; Chung Bau, evil character, Ed. Leong; Mun Gum Si, mother of groom, Lillian Lee; Han Ching, a street vendor, S. Chun; Mock Hau Pen, another street vendor, Francis Fong; Mun Kwong Wai, bridegroom, James Wong; Woo San Heong, maid of the bride, Gladys Li; Lin Wan Sun, father of the bride, Henry Tom; Lin Hu Si, mother of the bride, Florence Yapp; Lin Bau Yuk, bride, Elsie Ting; Mei Fung, maid, Rose Achuck; Wong Ung Hoon, lover of Bau Yuk, Arthur Liu.

Miss Bertha Chong, senior, is coaching the play. C. T. Lum is taking charge of decorations. Y. T. Lum is business manager. Mung Yee Yap has charge of property and costumes.

Punches Bag For
New World's Mark

In the presence of a crowded assembly at Seaham Harbour School of Physical Culture, George Davison, a Dawdon miner, completed 62 hours' continuous ball punching. He began punching the ball at 10.20 at night, and when he reached 60 hours he equalled what is believed to be a world's record. The would-be champion did not stop, but went on punching, in the presence of a large crowd, setting up a new record of 62 hours.
